Art Unit: 3611

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 15-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Numerous elements in claim 15 lack antecedent basis. It does not appear that this claim is intended to depend from claim 8.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4, 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Ashton.

Ashton teaches a device having the structure as claimed. The device includes a platform 36, a pneumatic source 34, a support 12, an elevator 14 and a skirt 40. The air cushion system of Ashton is considered to constitute a pneumatic caster, to the degree claimed. The hydraulic lift 14 of Ashton is considered to constitute a pneumatically operated elevator to the degree claimed since hydraulic systems and pneumatic systems are both fluid operated systems.

5. Claims 7-14 are allowed.

6. Claims 5, 6 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3611

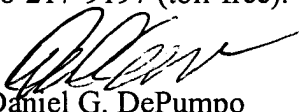

7. Claims 15-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Love and Mantle disclose various devices having features in common with the instant invention.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel G. DePumpo whose telephone number is 703 308-1113. The examiner can normally be reached on Monday - Thursday.
